Professional Summary

📁 Portfolio

Business Intelligence Analyst skilled in **SQL, Python, Power BI, Excel, and Data Visualization**, with experience in **data analytics, dashboard development, data modeling, and data preparation**. Proven ability to **integrate, clean, transform, and analyse** complex datasets to build **interactive dashboards** and deliver **actionable business insights** for data-driven decision-making.

Experience

Research Analyst Intern — RE Journal

Feb 2026 – Jun 2026

Internship · Mumbai, India

- Performed **data analytics** on **10K+ real-estate records** to identify pricing trends and business opportunities.
- Executed **data preparation, cleansing, and transformation** using **SQL, Python, and Excel** to improve reporting accuracy.
- Developed interactive **Power BI dashboards and visualizations** that transformed raw data into actionable insights.
- Built and optimized **data models and reporting tools** for scalable business intelligence reporting.
- Integrated data from multiple sources and delivered **business insights** by collaborating with stakeholders and business teams.

Projects

FoodPulse Analytics (Power BI, SQL, Excel, DAX)

- Built a multi-page **Power BI dashboard** analyzing **200K+ food delivery records**.
- Tracked KPIs including **Revenue, Orders, Average Order Value, Delivery Success Rate, and Revenue Growth**.
- Built **customer segments and cohort-based performance metrics**, testing hypotheses on restaurant and delivery performance.
- Implemented **DAX measures, drill-through reports, and interactive visualizations** for business intelligence.

Emergency Care Intelligence Dashboard (Power BI, Excel, DAX, Data Modeling)

- Built a healthcare analytics dashboard analyzing **9K+ emergency room patient records**.
- Monitored KPIs including **Patient Volume, Wait Time, Satisfaction Score, and Referral Analysis**.
- Designed monthly and consolidated reports using **Power BI, Power Query, and DAX**.
- Ran **exploratory analysis** to surface demographic and operational patterns supporting healthcare decision-making.

Olist E-Commerce Analytics Dashboard (SQL, PostgreSQL, Power BI)

- Built an end-to-end **analytics dashboard** to monitor sales, logistics, customer, and seller KPIs.
- Queried, cleaned, and analysed **99K+ orders** using SQL-driven **ETL pipelines** with optimized fact and dimension views.
- Delivered **decision-ready insights** to improve retention, delivery performance, and revenue optimization.

Technical Skills

Programming & Databases: Python, SQL, PostgreSQL, MySQL

Business Intelligence & Analytics: Power BI, Data Visualization, Dashboard Development, DAX, Power Query, Data Modeling, Data Analytics, KPI Reporting, Self-Service Analytics

Data Engineering: ETL Pipelines, Data Preparation, Data Transformation, Data Integration

Tools & Libraries: Excel, Pandas, NumPy, Matplotlib, Seaborn, Git, GitHub

Cloud Technologies: Microsoft Fabric, OneLake, Azure Fundamentals

Education

Vidhyavardhini's College of Engineering and Technology

Vasai, Maharashtra

Bachelor of Engineering in Computer Engineering (CGPA: 8.02)

Nov 2022 – May 2026

Achievements

- Published an **IEEE Research Paper** on AI-driven urban grievance management and intelligent plan approval systems.
- Content Writing Head at **VCET PR Committee**, leading content strategy and communication initiatives.
- Served as **Deputy Media & Communication Lead** at Android Development Club.

Certifications

- **IBM SkillsBuild Data Analytics Certification** (Grade A+)
- **Python Certification** – HackerRank
