Professional Summary

📁 Portfolio

Business Insights and Analytics professional skilled in **SQL, Python, Power BI, and Excel**, with experience in **commercial analytics, dashboard development, KPI reporting, and data-driven decision support**. Familiar with **AI-powered analytics workflows, reporting automation, and stakeholder insight generation**, translating complex datasets into actionable business recommendations.

Experience

Research Analyst Intern — RE Journal

Feb 2026 – Jun 2026

Internship · Mumbai, India

- Analyzed **10K+ real-estate records** using EDA techniques to uncover pricing trends and market opportunities.
- Cleaned and transformed datasets using **SQL, Python, and Excel**, improving data quality and reporting accuracy.
- Developed interactive **Power BI dashboards** and KPI reports to monitor business performance metrics.
- Utilized **SQL** for data extraction, validation, and analysis of structured real-estate datasets.
- Automated recurring reporting workflows and data summarization using analytical tools, reducing manual reporting effort.

Projects

FoodPulse Analytics (Power BI, SQL, Excel, DAX)

- Developed a multi-page **Power BI dashboard** analyzing **200K+ food delivery records**.
- Tracked KPIs including **Revenue, Orders, Average Order Value, Delivery Success Rate, and Revenue Growth**.
- Performed **customer segmentation, targeting, and channel performance analysis** to identify revenue growth opportunities.
- Implemented **DAX measures, drill-through reports, and interactive visualizations** for business intelligence.

Emergency Care Intelligence Dashboard (Power BI, Excel, DAX, Data Modeling)

- Built a healthcare analytics dashboard analyzing **9K+ emergency room patient records**.
- Monitored KPIs including **Patient Volume, Wait Time, Satisfaction Score, and Referral Analysis**.
- Designed monthly and consolidated reports using **Power BI, Power Query, and DAX**.
- Performed demographic and operational analysis to support healthcare decision-making.

Olist E-Commerce Analytics Dashboard (SQL, PostgreSQL, Power BI)

- Built an end-to-end **analytics dashboard** to monitor sales, logistics, customer, and seller KPIs.
- Created SQL-driven **ETL pipelines** processing **99K+ orders** with optimized fact and dimension views.
- Delivered actionable **business insights** to improve retention, delivery performance, and revenue optimization.

Technical Skills

Programming & Databases: Python, SQL, PostgreSQL, MySQL

Business Intelligence & Analytics: Power BI, DAX, Power Query, Data Modeling, EDA, Statistical Analysis, KPI Reporting, Dashboard Development

Data Engineering: ETL Pipelines, Data Transformation

Tools & Libraries: Excel, Pandas, NumPy, Matplotlib, Seaborn, Git, GitHub

AI Tools: ChatGPT, Claude, Copilot, AI-Assisted Reporting, Insight Summarization

Cloud & Data Platforms: Microsoft Fabric, Databricks (Foundational), OneLake, Azure Fundamentals

Education

Vidhyavardhini's College of Engineering and Technology

Vasai, Maharashtra

Bachelor of Engineering in Computer Engineering (CGPA: 8.02)

Nov 2022 – May 2026

Achievements

- Published an **IEEE Research Paper** on AI-driven urban grievance management and intelligent plan approval systems.
- Content Writing Head at **VCET PR Committee**, leading content strategy and communication initiatives.
- Served as **Deputy Media & Communication Lead** at Android Development Club.

Certifications

- **IBM SkillsBuild Data Analytics Certification** (Grade A+)
- **Python Certification** – HackerRank
